Personal

Description: I'm positive, out-going, non-conflict and flexible person. I like to keep my things in order and my room is usually clean and tidy. I love cooking, especially Ukrainian national dishes, such as borsch and varenyky. I don't like to go to bed early and I'm not an early bird either. I am not very talkative in the mornings, but during the day I would be happy to talk about everything with you.

Hobbies: drawing, playing basketball, watching all kinds of sport events, reading, watching British films and American series.

Favourite Music and Movies: I like all kinds of music. Also I listen to music for the soul (piano or violin).

And as for the choice of films it depends on my mood. I like watching psychological thriller movies, comedies and sometimes if I'm sad I like watching drama. But in good company all films would be nice :)

Things I like: hmm I like long conversation with a cup of green tea, walking, examining new places, traveling, shopping. I really appreciate honest, kind, open-hearted and motivating people.

Things I don't like: 3 things - lies, laziness, untidiness.

What I expect from host family: I hope that you will become my real friends and truly show me Czech traditions, help to deep in Czech culture, style of life and atmosphere. Also I hope that you will support me in difficult minutes or while filling homesick.

Life Motto: Never be afraid to show the world who you are.
